

City of Albuquerque Information Technology Services Division Data Management

Data.cabq.gov Core Metadata Requirements

Contact Information

Who is the contact for this dataset? The contact will be the City employee who is accountable for the data provided in this dataset and can act as front-line support in the event of any questions about the data.

Name	Brandon R Gibson
Department/Division	City of Albuquerque – Parks & Recreation Department
Phone	p) 505.768.5342 f) 505.768.5305
Email	mfehr@cabq.gov

What Does this Dataset Describe?

What is the name of this dataset? How should a user identify this dataset in any communication with contact above? Provide a shorter description of the Dataset that can act as a one-line summary of the dataset when dealing with stakeholders. Provide a longer description of the data that can be readily understood by non-technical users.

Dataset Title	Swimming Pool Admissions	
Short Description	Swimming Pool Admissions	
Full Non-Technical Description		

The swimming pool admissions dataset contains information about the number of people that were admitted into one of the city pool facilities. Dataset contains information on type of admission, location, quantity, admission cost, date. Not all admissions have an individual price.

How Should this Dataset be Cited?

How should external sources refer to this dataset in publications or documentation? Often this will simply be the URL and the date retrieved.

http://data.cabq.gov/community/swimmingpooladmissions/SwimmingPoolAdmissionsCABQ-en-us.csv http://data.cabq.gov/community/swimmingpooladmissions/SwimmingPoolAdmissionsCABQ-en-us.xml

Does the Dataset Reflect a Particular Time Period?

Provide any date restrictions that may affect the validity of the data. The table fields are defined as follows:

Field	Definition
Start Date	Start date of the time period within which this data falls. Format: MM/DD/YYYY HH:MM:SS.
End Date	End date of the time period within which this data falls. Format: MM/DD/YYYY HH:MM:SS.
Dataset Refresh Interval	Time period between Dataset refreshes. Format: "nn [seconds/minutes/hours/days/weeks/months/years] " or the word "Static" if never refreshed.
Data Expiration Date	Date after which the data must be considered stale and no longer of sufficient utility (fit-for-purpose). Format: MM/DD/YYYY HH:MM:SS.
Dataset Review Date	Date after which this dataset will be reviewed by the City for utility (fit-for-purpose) and usage. Format: MM/DD/YYYY HH:MM:SS.
Comments	Specific comments related to any time-specific features of this dataset.

Start Date	01/19/2009	
End Date	Current (close of business the prior day)	
Dataset Refresh Interval	Nightly	
Dataset Expiration Date	None	
Dataset Review Date	None	
Comments		

Dataset Definition/Format

Provide a field-by-field breakdown and definition of each record. This section acts as the formal data dictionary for an individual record.

Dataset Technical Description

Provide a technical description of the dataset. This should be a complete technical description aimed at developers and expert users who need to understand the scope, strengths and limitations of the dataset.

csv format delimited with a comma (,) with a header row for field names.

Dataset Assumptions

What technical and business assumptions are implied in the creation of this dataset? Examples could include the way in which a salary figure was calculated or data that was omitted for a specific reason.

None

Who Produced the Dataset?

Which department in the City produced this dataset? Note that this might not always be the data owner. An example of this could be a dataset that ITSD produced on behalf of EHD who owned the data.

ITSD – Business Intelligence Group

Who Owns the Data?

Where did this data originate? Who owns the data used in this dataset? Note that this might not always be the dataset producer. An example of this could be a dataset that ITSD produced on behalf of EHD who owned the data.

Brandon R. Gibson

Aquatics Division Manager City of Albuquerque – Parks & Recreation Department p) 505.768.5342 f) 505.768.5305

Why was the Dataset Created?

All datasets should have an explicit reason for existence and should, somehow, have value to someone. What is the perceived value that this dataset will bring?

In an effort to provide transparent government.

How was the Dataset Created?

How was this dataset produced? Was it a manual process? An automated process? What were the main IT systems involved in producing this dataset?

Data is generated from the production POS application and sent to BI group then extracted into xml and csv

What Similar or Related Data Should the User be Aware of?

Are there any other datasets available that may contain related or similar information? Might there be situations in which these other datasets might be a better alternative?

None

How Reliable are the Data?

Are there any concerns about overall data reliability? Are there any data problems that the user needs to be aware of? Are there any constraints with data accuracy? What levels of confidence with this dataset could the user reasonably assume?

Data is produced from the production POS application that is used on a daily basis.

How Well Have the Observations Been Checked?

What quality assurance steps have been performed? Sometimes, a third-party verification/audit process may also be required. If so, provide the name of the third-party who performed the verification.

Data is produced from the production EHD application that is used on a daily basis.

Are there Legal Restrictions on the Access or Use of the Data?

Are there any specific legal or compliance restrictions for this data? How might this affect the way in

which end users might access and use this data?

None
